**Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana. This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature. Langston Hughes's stories about Jesse B. Semple--first composed for a weekly column in the Chicago Defender and then collected in Simple Speaks His Mind, Simple Takes a Wife, and Simple Stakes a Claim--have been read and loved by hundreds of thousands of readers. In The Best of Simple, the author picked his favorites from these earlier volumes, stories that not only have proved popular but are now part of a great and growing literary tradition. Simple might be considered an Everyman for black Americans. Hughes himself wrote: "...these tales are about a great many people--although they are stories about no specific persons as such. But it is impossible to live in Harlem and not know at least a hundred Simples, fifty Joyces, twenty-five Zaritas, and several Cousin Minnies--or reasonable facsimiles thereof." As Arnold Rampersad has written, Simple is "one of the most memorable and winning characters in the annals of American literature, justly regarded as one of Hughes's most inspired creations." Ever wondered why some people are left handed? Or how it is that we always awaken from sleep? This book contains hundreds of truly fascinating questions and answers, all about our bodies - you'll learn how colour blindness works, who discovered the structure of DNA and when and how respiration occurs. This book provides**

the answers to these questions and hundreds more, telling you all about the who, what, when, where and why of the human body. Find out how cells form, what makes hair curly and how fingerprints differ, with fact files on each page to pull out the key information. Use this book to settle debates, help with school projects and prepare quizzes; this easy-to-use reference guide will provide hours of entertainment for kids with questions! Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in *Voices of a People's History of the United States*, edited by Howard Zinn and Anthony Arnove. Paralleling the twenty-four chapters of Zinn's *A People's History of the United States*, *Voices of a People's History* is the long-awaited companion volume to the national bestseller. For *Voices*, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. *Voices of a People's History* is a symphony of our nation's original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience. **The Fletchers'** beautiful new house is everything they dreamed it would be. Built between two churches in Heptonclough, a small village on the moors that time forgot, it ought to be paradise for this young family of five, but they barely have a chance to settle in before they find that they're anything but welcome. Someone seems to be trying to drive them away--at first with silly pranks but then with threats that become increasingly dangerous, especially to the oldest child, ten-year-old Tom Fletcher, who begins to believe that someone is always watching him. The adults in Tom's life are trying to help, including his parents; the vicar next door, younger and more dashing than you'd expect a vicar to be; and a therapist, Evi Oliver, who believes him more than she wants to. But there are other clues that something isn't quite right in Heptonclough, including the mysterious accidental deaths of three toddlers over the last ten years. It is not until Tom's siblings, two-year-old Milly and five-year-old Joe Fletcher, go missing in turn that the little village's evil secret turns the Fletchers' dreams into a nightmare. With *Sacrifice*, *Awakening*, and now *Blood Harvest*, S. J. Bolton displays time and time again her remarkable talent as a beguiling storyteller, a master of thrills, and the mistress of her own brand of modern Gothic tale.

Empire of the Summer Moon spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne’s exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne’s account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. Empire of the Summer Moon announces him as a major new writer of American history. Whether you realise it or not, you probably enjoy bad movies. The sixteenth century was an age of politically powerful women. Queens, acting in their own right, and female regents, acting on behalf of their male relatives, governed much of Western Europe. Yet even as women ruled - and ruled effectively - their right to do so was hotly contested. Men's voices have long dominated this debate, but the recovery of texts by women now allows their voices, long silenced, to be heard once again. *Debating Women, Politics, and Power in Early Modern Europe* is a study of texts and textual production in the construction of gender, society, and politics in the early modern period. Jansen explores the "gynecocracy" debate and the larger humanist response to the challenge posed by female sovereignty. For many thousands of years, people have used oratory to influence others, but what exactly makes a speech great? Is it the choice of words, the feelings they express, the passion with which the speaker delivers them, the circumstances or the lasting effect that the speech has on what other people think or do, or even on the course of history? Open up this book to find out... The speeches in *Speeches that Changed the World* are divided into the following chapters: Ancient history, Love, Religion, Science, Patriotism, Philosophy, Humanity and liberty, Sport, Politics and War. Many of them have inspired people to act, some have changed the way people think or look at the world. Others have changed the course of events across the globe - sometimes for the better, at other times with devastating results. All have chronicled our history. 'Both a fun stroll through some all-time favourites, and a guilty reminder of just how many great movies I haven't seen yet . . .' Aubrey Day, *Total Film* 'As edited by Steven Jay Schneider, it makes for addictive browsing, and likewise features top quality stills.' *Film Review*

Provides an explanation to the many questions children have about the world using a question-and-answer format with straightforward language. The long awaited second novel from Fiona McGregor, which charts the dance parties, relationships and creative endeavours of a group of friends in Sydney. Visitors to the Arctic enter places that have been traditionally imagined as otherworldly. This strangeness fascinated audiences in nineteenth-century Britain when the idea of the heroic explorer voyaging through unmapped zones reached its zenith. *The Spectral Arctic* re-thinks our understanding of Arctic exploration by paying attention to the importance of dreams and ghosts in the quest for the Northwest Passage. The narratives of Arctic exploration that we are all familiar with today are just the tip of the iceberg: they disguise a great mass of mysterious and dimly lit stories beneath the surface. In contrast to oft-told tales of heroism and disaster, this book reveals the hidden stories of dreaming and haunted explorers, of frozen mummies, of rescue balloons, visits to Inuit shamans, and of the entranced female clairvoyants who travelled to the Arctic in search of John Franklin's lost expedition. Through new readings of archival documents, exploration narratives, and fictional texts, these spectral stories reflect the complex ways that men and women actually thought about the far North in the past. This revisionist historical account allows us to make sense of current cultural and political concerns in the Canadian Arctic about the location of Franklin's ships. Jane Austen's career as a novelist began in 1811 with the publication of *Sense and Sensibility*. Her work was finally adapted for the big screen with the 1940 filming of *Pride and Prejudice* (very successful at the box office). No other film adaptation of an Austen novel was made for theatrical release until 1995. Amazingly, during 1995 and 1996, six film and television adaptations appeared, first *Clueless*, then *Persuasion*, followed by *Pride and Prejudice*, *Sense and Sensibility*, the Miramax *Emma*, and the Meridian/A&E *Emma*. This book traces the history of film and television adaptations (nearly 30 to date) of Jane Austen manuscripts, compares the adaptations to the manuscripts, compares the way different adaptations treat the novels, and analyzes the adaptations as examples of cinematic art. The first of seven chapters explains why the novels of Jane Austen have become a popular source of film and television adaptations. The following six chapters each cover one of Austen's novels: *Sense and Sensibility*, *Pride and Prejudice*, *Emma*, *Mansfield Park*, *Persuasion*, and *Northanger Abbey*. Each chapter begins with a summary of the main events of the novel. Then a history of the adaptations is presented followed by an analysis of the unique qualities of each adaptation, a comparison of these adaptations to each other and to the novels on which they are based, and a reflection of relevant film and literary criticism as it applies to the adaptations. *501 Must-See Movies* is divided into ten genres, with films appearing in chronological order in each category. Every film is illustrated and each entry includes a synopsis of the plot, details of awards for which it was nominated and those it won, and fascinating background or insider knowledge about the making of the picture, as well as our experts' rationale for defining it as 'must-see'. Many of the unrivalled classics are here, but perhaps seen from a new perspective by dynamic young critics, together with some unexpected and new discoveries. Containing over a century of film history *501 Must-See Movies* is a 'must have' on all bookshelves and is the perfect companion to any home cinema DVD collection.
