Country Matters Dec 01 2020 "Dreaming of moving to the country? First, read Michael Korda's engaging memoir. City types will find laughter, profit, and fair warning in *Country Matters*." —Washington Post With his inimitable sense of humor and storytelling talent, New York Times bestselling author Michael Korda brings us this charming, hilarious, self-deprecating memoir of a city couple's new life in the country. At once entertaining, canny, and moving, *Country Matters* does for Dutchess County, New York, what *Under the Tuscan Sun* did for Tuscany. This witty memoir, replete with Korda's own line drawings, reads like a novel, as it chronicles the author's transformation from city slicker to full-time country gentleman, complete with tractors, horses, and a leaking roof. When he decides to take up residence in an eighteenth-century farmhouse in Dutchess County, ninety miles north of New York City, Korda discovers what country life is really like: Owning pigs, more than owning horses, even more than owning the actual house, firmly anchored the Kordas as residents in the eyes of their Pleasant Valley neighbors. You may own your land, but without concertina barbed wire, or the 82nd Airborne on patrol, it's impossible to keep people off it! It's possible to line up major household repairs over a tuna melt sandwich. The locals are not particularly quick to accept these outsiders, and the couple's earliest interactions with their new neighbors provide constant entertainment, particularly when the Kordas discover that hunting season is a year-round event—right on their own land! From their closest neighbors, mostly dairy farmers, to their unforgettable caretaker Harold Roe—whose motto regarding the local flora is "Whack it all back!"—the residents of Pleasant Valley eventually come to realize that the Kordas are more than mere weekenders. Sure to have readers in stitches, this is a book that has universal appeal for all who have ever dreamed of owning that perfect little place to escape to up in the country, or, more boldly, have done it.

The Country in the City Dec 25 2022 Winner of the Western History Association's 2009 Hal K. Rothman Award Finalist in the Western Writers of America Spur Award for the Western Nonfiction Contemporary category (2008). The San Francisco Bay Area is one of the world's most beautiful cities. Despite a population of 7 million people, it is more greensward than asphalt jungle, more open space than hardscape. A vast quilt of countryside is tucked into the folds of the metropolis, stitched from fields, farms and woodlands, mines, creeks, and wetlands. In *The Country in the City*, Richard Walker tells the story of how the jigsaw geography of this greenbelt has been set into place. The Bay Area's civic landscape has been fought over acre by acre, an arduous process requiring popular mobilization, political will, and hard work. Its most cherished environments--Mount Tamalpais, Napa Valley, San Francisco Bay, Point Reyes, Mount Diablo, the Pacific coast--have engendered some of the fiercest environmental battles in the country and have made the region a leader in green ideas and organizations. This book tells how the Bay Area got its green grove: from the stirrings of conservation in the time of John Muir to origins of the recreational parks and coastal preserves in the early twentieth century, from the fight to stop bay fill and control suburban growth after the Second World War to securing conservation easements and stopping toxic pollution in our times. Here, modern environmentalism first became a mass political movement in the 1960s, with the sudden blooming of the Sierra Club and Save the Bay, and it remains a global center of environmentalism to this day. Green values have been a pillar of Bay Area life and politics for more than a century. It is an environmentalism grounded in local places and personal concerns, close to the heart of the city. Yet this vision of what a city should be has always been informed by liberal, even utopian, ideas of nature, planning, government, and democracy. In the end, green is one of the primary colors in the flag of the Left Coast, where green enthusiasms, like open space, are built into the fabric of urban life. Written in a lively and accessible style, *The Country in the City* will be of interest to general readers and environmental activists. At the same time, it speaks to fundamental debates in environmental history, urban planning, and geography.

Country Living Mar 24 2020 *Country Living* now publish in a GIANT Print Edition (A4). With a 15pt letter, this amazing book can be readable better and help those people that have problems with vision. This counsels and warnings have challenged many Seventh-day Adventists to examine carefully the effects of urban living on their lives and to reevaluate where they choose to live. It has highlighted the dangers of involvement with labor unions and other sources of party strife in the cities. At the same time, it has helped those with a burden for city evangelism to consider how best to be in the world but not of the world. With the end of time approaching, this instruction is more relevant than ever. A new generation of believers will find these counsels opening horizons to them that they had not envisioned. The writings of Ellen G. White repeatedly urge the advantages of country living. As conditions in our world build toward the final events, Seventh-day Adventists recall the Lord's instruction about leaving the cities, with their congestion, corruption, and conflicts. The cities do not provide a wholesome environment for Christian families.

A Country of Cities Feb 27 2023 In *A Country of Cities*, author Vishaan Chakrabarti argues that well-designed cities are the key to solving America's great national challenges: environmental degradation, unsustainable consumption, economic stagnation, rising public health costs and decreased social mobility. If we develop them wisely in the future, our cities can be the force leading us into a new era of progressive and prosperous stewardship of our nation. In compelling chapters, Chakrabarti brings us a wealth of information about cities, suburbs and exurbs, looking at how they developed across the 50 states and their roles in prosperity and globalization, sustainability and resilience, and health and joy. Counter to what you might think, American cities today are growing faster than their suburban counterparts for the first time since the 1920s. If we can intelligently increase the density of our cities as they grow and build the transit systems, schools, parks and other infrastructure to support them, Chakrabarti shows us how both job opportunities and an improved, sustainable environment are truly within our means. In this call for an urban America, he illustrates his argument with numerous infographics illustrating provocative statistics on issues as disparate as rising childhood obesity rates, ever-lengthening automobile commutes and government subsidies that favor highways over mass transit. The book closes with an eloquent manifesto that rallies us to build "a Country of Cities," to turn a country of highways, houses and hedges into a country of trains, towers and trees. Vishaan Chakrabarti is an architect, scholar and founder of PAU. PAU designs architecture that builds the physical, cultural, and economic networks of cities, with an emphasis on beauty, function and user experience. PAU simultaneously advances strategic urbanism projects in the form of master planning, tactical project advice and advocacy.

If You Lived Here You'd Be Home By Now Jan 14 2022 An NPR Best Book of the Year The hilarious, charming, and candid story of writer Christopher Ingraham's decision to uproot his life and move his family to Red Lake Falls, Minnesota, population 1,400—the community he made famous as “the worst place to live in America” in a story he wrote for the *Washington Post*. Like so many young American couples, Chris Ingraham and his wife Briana were having a difficult time making ends meet as they tried to raise their twin

boys in the East Coast suburbs. One day, Chris – in his role as a “data guy” reporter at the Washington Post – stumbled on a study that would change his life. It was a ranking of America’s 3,000+ counties from ugliest to most scenic. He quickly scrolled to the bottom of the list and gleefully wrote the words “The absolute worst place to live in America is (drumroll please) ... Red Lake County, Minn.” The story went viral, to put it mildly. Among the reactions were many from residents of Red Lake County. While they were unflappably polite – it’s not called “Minnesota Nice” for nothing – they challenged him to look beyond the spreadsheet and actually visit their community. Ingraham, with slight trepidation, accepted. Impressed by the locals’ warmth, humor and hospitality – and ever more aware of his financial situation and torturous commute – Chris and Briana eventually decided to relocate to the town he’d just dragged through the dirt on the Internet. *If You Lived Here You’d Be Home by Now* is the story of making a decision that turns all your preconceptions – good and bad -- on their heads. In Red Lake County, Ingraham experiences the intensity and power of small-town gossip, struggles to find a decent cup of coffee, suffers through winters with temperatures dropping to forty below zero, and unearths some truths about small-town life that the coastal media usually miss. It’s a wry and charming tale – with data! -- of what happened to one family brave enough to move waaaay beyond its comfort zone

In the process, traditional social structures are being torn apart, and a rootless, semi-displaced, consumption orientated culture rapidly taking their place. *Ghost Cities of China* is an enthralling dialogue driven, on-location search for an understanding of China's new cities and the reasons why many currently stand empty.

City Folk and Country Folk Apr 17 2022 “This scathingly funny comedy of manners” by the rediscovered female Russian novelist “will deeply satisfy fans of 19th-century Russian literature” (Publishers Weekly, starred review). *City Folk and Country Folk* is a seemingly gentle yet devastating satire of the aristocratic and pseudo-intellectual elites of 1860s Russia. Translated into English for the first time, the novel weaves a tale of manipulation, infatuation, and female assertiveness that takes place one year after the liberation of the empire's serfs. Upending Russian literary clichés of female passivity and rural gentry benightedness, Sofia Khvoshchinskaya centers her story on a common-sense, hardworking noblewoman and her self-assured daughter living on their small rural estate. Throwing off the imposed sense of duty toward their "betters", these two women ultimately triumph over the urbanites' financial, amorous, and matrimonial machinations. Sofia Khvoshchinskaya and her writer sisters closely mirror Britain's Brontës, yet Khvoshchinskaya's work contains more of Jane Austen's wit and social repartee, as well as an intellectual engagement reminiscent of Elizabeth Gaskell's condition-of-England novels. Written by a woman under a male pseudonym, this exploration of gender dynamics in post-emancipation Russia offers a new and vital point of comparison with the better-known classics of nineteenth-century world literature.
