It demands honesty about our research design and our perspectives, so that others can understand not just the research we have produced, but something about the way in which we have produced it. When carrying out research it is all too easy to become embroiled in our own research questions and objectives, so that when it comes to presenting our research we forget about situating it within the wider body of knowledge. For the lack of proper knowledge, many people find it difficult to writing up their paper. This book is intended to help you organize and write a quality research paper for Social Sciences.
