Understanding and Assessing Child Sexual Maltreatment Aug 22 2020 Understanding and Assessing Child Sexual Maltreatment, Second Edition updates its comprehensive coverage of child sexual abuse definitions and indicators, interview and questioning

techniques, and diagnosis guidelines to include an insightful response to the building social backlash against the so-called "child abuse industry." Distinguished scholar and experienced practitioner Kathleen Coulborn Faller applies twenty-five years of clinical experience and state-of-the-art research to offer authoritative guidance to both novice and experience practitioners.

### **Talking Seriously About God**

Feb 25 2021 Talk about God is often the source of controversy. Theists and atheists are equally passionate when making their stand for or against belief in God. In this book, a wide range of philosophers of religion have come together to discuss how serious talk about God ought to be conducted for theists and atheists alike in what should be their common pursuit for truth. The essays both address methodological questions and provide a range of concrete samples of serious God-talk, spanning from political, religion, and classical proofs of

God's existence to the problem of evil. (Series: Nordic Studies in Theology / Nordische Studien zur Atheism, Vol. 4) [Subject: Religious Studies]

### **Oxford Handbook of**

### **Internet Psychology** May 31

2021 Over one billion people use the Internet globally. Psychologists are beginning to understand what people do online, and the impact being online has on behaviour. It's making us re-think many of our existing assumptions about what it means to be a social being. For instance, if we can talk, flirt, meet people and fall in love online, this challenges many of psychology's theories that intimacy or understanding requires physical co-presence. "The Oxford Handbook of Internet Psychology" brings together many of the leading researchers in what can be termed 'Internet Psychology'. Though a very new area of research, it is growing at a phenomenal pace. In addition to well-studied areas of investigation, such as social identity theory, computer-

mediated communication and virtual communities, the volume also includes chapters on topics as diverse as deception and misrepresentation, attitude change and persuasion online, Internet addiction, online relationships, privacy and trust, health and leisure use of the Internet, and the nature of interactivity. With over 30 chapters written by experts in the field, the range and depth of coverage is unequalled, and serves to define this emerging area of research. Uniquely, this content is supported by an entire section covering the use of the Internet as a research tool, including qualitative and quantitative methods, online survey design, personality testing, ethics, and technological and design issues. While it is likely to be a popular research resource to be 'dipped into', as a whole volume it is coherent and compelling enough to act as a single text book. "The Oxford Handbook of Internet Psychology" is the definitive text on this burgeoning field. It

will be an essential resource for anyone interested in the psychological aspects of Internet use, or planning to conduct research using the 'net'.

Teaching Written Response to Text Dec 26 2020 Nancy's comprehension and written response strategies give teachers the first-tier Response-to-Intervention (RTI) help they need to get students off to a great start! Your intermediate students may be able to orally explain what they read, but can they write a logical, thorough, and well-elaborated response to text? This professional resource shows you how to teach written response as an expository piece, with a sequence of explicit instruction for both narrative and expository literature, 29 open-ended comprehension questions, models and strategies, and an annotated list of appropriate books. Helps all learners succeed at responding in writing to open-ended comprehension questions. By Nancy Boyles, associate

professor in Southern Connecticut State University's graduate reading program. For teachers of grades 3-8. Can be adapted easily for use with high school students.

*Models of Teaching* Jun 19 2020 Models of Teaching: Connecting Student Learning with Standards features classic and contemporary models of teaching appropriate to elementary and secondary settings. Authors Jeanine M. Dell'Olio and Tony Donk use detailed case studies to discuss 10 models of teaching and demonstrate how they can be connected to state content standards and benchmarks, as well as technology standards. This book provides readers with the theoretical and practical understandings of how to use models of teaching to both meet and exceed the growing expectations for research based instructional practices and student achievement.

*Advances in Questionnaire Design, Development, Evaluation and Testing* Dec 06 2021 A new and updated definitive resource for survey

questionnaire testing and evaluation Building on the success of the first Questionnaire Development, Evaluation, and Testing (QDET) conference in 2002, this book brings together leading papers from the Second International Conference on Questionnaire Design, Development, Evaluation, and Testing (QDET2) held in 2016. The volume assesses the current state of the art and science of QDET; examines the importance of methodological attention to the questionnaire in the present world of information collection; and ponders how the QDET field can anticipate new trends and directions as information needs and data collection methods continue to evolve. Featuring contributions from international experts in survey methodology, *Advances in Questionnaire Design, Development, Evaluation and Testing* includes latest insights on question characteristics, usability testing, web probing, and other pretesting approaches, as well as: Recent

developments in the design and evaluation of digital and self-administered surveys  
Strategies for comparing and combining questionnaire evaluation methods  
Approaches for cross-cultural and cross-national questionnaire development  
New data sources and methodological innovations during the last 15 years  
Case studies and practical applications  
Advances in Questionnaire Design, Development, Evaluation and Testing serves as a forum to prepare researchers to meet the next generation of challenges, making it an excellent resource for researchers and practitioners in government, academia, and the private sector.  
Significance of Decreasing Response Time for Social Questions by Using WhichOne, a Web 2.0 Application  
Mar 09 2022  
Our busy lives confront us with multiple questions that need to be answered every day. We may come across questions in our lives that we can answer ourselves; while there are

other questions we would like a second opinion. Then there are questions to which we simply do not know the answer. Proposed is WhichOne, a Web 2.0 application that allows users to obtain answers from other people. The proposed social networking tool named WhichOne, allows a user to quickly prepare a question and share it with others. Using social networking tools shortens the time delay of getting responses. It also allows for a quick computation of statistics associated with multiple answers, and for an access to a large number of potential individual or group responders. A user can create a poll and list possible responses to the poll. Polls have a close time where people can vote until they are closed for voting. WhichOne is a prototype and has been active for over half a year now and received a variety of polls and responses from several users. WhichOne obtains a faster response than email and phone calls because users using a desktop are able to share their polls using the

AddThis service, which provides 300 different options for sharing their poll. When using WhichOne's mobile application available on Android, users are able to share their poll using the sharing options available on their phone, this includes but is not limited to Twitter, Facebook, texting, and Google hangout. Email is slower than WhichOne because emails have a tendency to not receive a response for several days, maybe weeks. Calling on the other hand is an intrusive and slow option especially with a multi respondent poll.

**Experimental IR Meets Multilinguality, Multimodality, and Interaction** Aug 14 2022 This book constitutes the refereed proceedings of the 8th International Conference of the CLEF Initiative, CLEF 2017, held in Dublin, Ireland, in September 2017. Dec 14 2019 This revised set of resources for Cambridge IGCSE Business Studies syllabus 0450 (and Cambridge O Level Business Studies syllabus 7115) is thoroughly updated for the latest syllabus for first examinations from

2015. Written by experienced teachers, the Coursebook provides comprehensive coverage of the syllabus. Accessible language combined with the clear, visually-stimulating layout makes this an ideal resource for the course. Questions and explanation of key terms reinforce knowledge; different kinds of activities build application, analytical and evaluation skills; case studies contextualise the content making it relevant to the international learner. It provides thorough examination support for both papers with questions at the end of each chapter and an extensive case study at the end of each unit. The CD-ROM contains revision aids, further questions and activities. A Teachers CD-ROM is also available.

### **The forbid/allow asymmetry**

Oct 12 2019 Questionnaires are widely used in the social sciences and very often survey data form the basis for governmental and commercial planning or evaluation. Yet the quality of survey data is not

attested to, since a large variety of factors in the language-use situation prove to influence the answers unintentionally. The forbid/allow asymmetry is a well-known example of this: when respondents are asked whether something should be forbidden, about 50% may answer 'yes, forbid' - whereas an equivalent question phrased with the verb 'to allow' could well cause up to 75% of the respondents to answer 'no, it should not be allowed'. Which question wording is preferable to measure respondents' true attitudes? Only when we know why the answers differ, can we decide on that. This book is the first to apply a systematic cognitive approach to describe the causes of the forbid/allow asymmetry. The question-answering process is unravelled by a variety of experiments and meta-analytic techniques. Analyses reveal that the difference in question wording does not prompt respondents to retrieve different attitudes. Instead, the asymmetry reflects that the

question wording causes the response options to be used differently. Because of the qualifying dimensions in the question text, the meanings of 'yes' and 'no' change, as well as the cognitive distance between them. This study sheds a different light on processes of question-answering and text interpretation. Furthermore, practical advice on questionnaire design and on the interpretation of survey data is given on the basis of these new insights.

May 19 2020 Criminal Justice  
and Criminology Research  
Methods, Third Edition, is an  
accessible and engaging text  
that offers balanced coverage  
of a full range of contemporary  
research methods. Filled with  
gritty criminal justice and

criminology examples including policing, corrections, evaluation research, forensics, feminist studies, juvenile justice, crime theory, and criminal justice theory, this new edition demonstrates how research is relevant to the field and what tools are needed to actually conduct that research. Kraska, Brent, and Neuman write in a pedagogically friendly style yet without sacrificing rigor, offering balanced coverage of qualitative, quantitative, and mixed methods. With its exploration of the thinking behind science and its cutting-edge content, the text goes beyond the nuts and bolts to teach students how to competently critique as well as create research-based knowledge. This book is suitable for undergraduate and early graduate students in US and global Criminology, Criminal Justice, and Justice Studies programs, as well as for senior scholars concerned with incorporating the latest mixed-methods approaches into their research.
