Dangerous Waters Oct 16 2022 Determined to focus on work rather than books, as his father had, twelve-year-old Patrick Waters leaves Belfast as a steward on the Titanic, but the very wealthy Harry Widener arranges to tutor him, drawing Patrick into association with thieves seeking Harry's very rare edition of Francis Bacon's Essays.

Sea of Gold Aug 22 2020 In the tradition of Treasure Island, an unlikely young pirate races a band of devious rogues for hidden gold in the start of a new middle-grade series by bestselling author Gregory Mone Twelve-year-old Fish--nicknamed for his skill as a swimmer--never intended to become a pirate. For starters, he's just a kid from a poor farming family, and second, he absolutely hates to fight. But after his parents send him to work as a courier, one of his deliveries is stolen, and as Fish hurries to get it back, he's captured by a ship of scalawags. And the mysterious package? It's the key to locating the Chain of Chuacar, a legendary treasure. Swabbing the deck of the Scurvy Mistress, Fish will have to earn the trust of the fortune-obsessed captain and learn the ropes from the rest of the crew, including a boy encyclopedia on all things piracy, a tough-as-nails young thief, and a fearless girl with knives up her sleeves. Yet with mutiny on the horizon and a ruthless first mate testing him at every turn, Fish isn't sure he'll survive, let alone find the Chain. Armed only with wit, courage and determination, Fish leads his new friends in the fight of their young lives and a hunt for the hidden gold.

Escape from Atlantis Sep 03 2021 "When Riley and her family are stranded on the mythical island of Atlantis, they'll have to uncover its secrets in order to find a way home"--

The Wages of Genius Nov 05 2021 A failed graduate student hits the road to prove his scientific "theory of nothing," comically unaware of his own status as a spoiler and determined to revolutionize the planet as he chases the mantle of top genius held by his hero, Einstein. Reprint.

Fish Jan 19 2023 Eleven-year-old Fish, seeking a way to help his family financially, becomes a reluctant cabin boy on a pirate ship, where he soon makes friends--and enemies--and is asked to help decipher clues that might lead to a legendary treasure.

Tracking Trash Dec 14 2019 Aided by an army of beachcombers, oceanographer Dr. Curtis Ebbesmeyer tracks trash in the name of science. From sneakers to hockey gloves, Curt monitors the watery fate of human-made cargo that has spilled into the ocean. The information he collects is much more than casual news; it is important scientific data. And with careful analysis, Curt, along with a community of scientists, friends, and beachcombers alike, is using his data to understand and protect our ocean. In engaging text and unforgettable images, readers meet the woman who started it all (Curts mother!), the computer program that makes sense of his data (nicknamed OSCURS), and several scientists, both on land and on the sea, who are using Curts discoveries to preserve delicate marine habitats and protect the creatures who live in them. A Boston Globe-Horn Book Award Honor Book for Nonfiction.

The Secret Lives of Introverts Jan 27 2021 An introvert guide and manifesto for all the quiet ones—and the people who love them. Is there a hidden part of you that no one else sees? Do you have a vivid inner world of thoughts and emotions that your peers and loved ones can't seem to access? Have you ever been told you're too "quiet," "shy," "boring," or "awkward"? Are your habits and comfort zones questioned by a society that doesn't seem to get the real you? If so, you might be an introvert. On behalf of those who have long been misunderstood, rejected, or ignored, fellow introvert Jenn Granneman writes a compassionate vindication—exploring, discovering, and celebrating the secret inner world of introverts that, only until recently, has begun to peek out and emerge into the larger social narrative. Drawing from scientific research, in-depth interviews with experts and other introverts, and her personal story, Granneman reveals the clockwork behind the introvert's mind—and why so many people get it wrong initially. Whether you are a bona fide introvert, an extrovert anxious to learn how we tick, or a curious ambivert, these revelations will answer the questions you've always had: What's going on when introverts go quiet? What do introvert lovers need to flourish in a relationship? How can introverts find their own brand of fulfillment in the workplace? Do introverts really have a lot to say—and how do we draw it out? How can introverts mine their rich inner worlds of creativity and insight? Why might introverts party on a Friday night but stay home alone all Saturday? How can introverts speak out to defend their needs? With other

myths debunked and truths revealed, *The Secret Lives of Introverts* is an empowering manifesto that guides you toward owning your introversion by working with your nature, rather than against it, in a world where you deserve to be heard.

The Accidental Invasion Feb 20 2023 Fourteen-year-old Kaya, of the undersea, high-tech world of Atlantis, and twelve-year-old Lewis, of the climate-threatened world above water, embark on a dangerous adventure when he enters her realm.

Kay's Marvellous Medicine Apr 17 2020 The remarkable and remarkably revolting follow-up children's book to the record-breaking bestseller *Kay's Anatomy* from the UK's funniest science teacher, Adam Kay. Illustrated throughout by comedian Henry Paker. The olden days were pretty fun if you liked wearing chainmail or chopping people's heads off but there was one TINY LITTLE problem back then . . . doctors didn't have the slightest clue about how our bodies worked. It's time to find out why Ancient Egyptians thought the brain was just a useless load of old stuffing that might as well be chucked in the bin, why teachers forced their pupils to smoke cigarettes, why hairdressers would cut off their customers' legs, and why people used to get paid for farting. (Unfortunately that's no longer a thing - sorry.) You'll get answers to questions like- Why did patients gargle with wee? How did a doctor save people's lives using a washing machine, a can of beans and some old sausages? What was the great stink? (No, it's not what doctors call your bum.) If you're sure you're ready, then pop a peg on your nose (there was a lot of stinky pus back then), pull on your wellies (there was a lot of poo there too), wash your hands (because they certainly didn't) and explore the gross and gruesome history of the human body in . . . **KAY'S MARVELLOUS MEDICINE** - the brand-new, hilarious book from bestselling, record-breaking author, Adam Kay. Praise for *Kay's Anatomy*- 'An enjoyably gross look at the human body. Hours of gruesome fun guaranteed' i 'Like listening to a teacher who makes pupils fall about' *Sunday Times* 'Totally brilliant!' *Jacqueline Wilson* 'Fun and informative' *Malorie Blackman* 'Very funny - this exciting book is bound to inspire the next generation of medics' *Sunday Express* **Atlantis: The Accidental Invasion (Atlantis Book #1)** Dec 18 2022 Perfect for fans of Percy Jackson and Mr. Lemoncello's Library, *Atlantis: The Accidental Invasion* is now in paperback! Kaya, raised in the undersea, high-tech world of Atlantis, has always been fascinated by the legends about life above the water. Despite the government's insistence that they're only stories, she can't help but dream about the Sun People—and when a group of officials known as Erasers move to bury those legends for good, Kaya sets out to the surface to uncover the truth once and for all. In the world above, where climate change has led to giant tsunamis that threaten Earth's coasts, all Lewis wants is to spend more time with his scientist father. When he stows away on his dad's top-secret research trip, he finds himself thrown headfirst

into an adventure much bigger than he bargained for. Fast-paced and action-packed, *The Accidental Invasion* brings readers into a world unlike anything they've seen before. Bonus content includes real scientific information about genetic modification, earthquakes, nuclear power, and plate tectonics.

The Physics of NASCAR Aug 02 2021 Draws on the author's expertise in physics, as well as interviews with mechanics, pit crews, and other insiders, to trace the life cycle of a race car and offer insight into the scientific aspects of high-speed racing, in an account that also explains how drivers survive dangerous accidents. 35,000 first printing.

Accessory to War: The Unspoken Alliance Between Astrophysics and the Military Feb 14 2020 "Extraordinary.... A feast of history, an expert tour through thousands of years of war and conquest." —Jennifer Carson, New York Times Book Review In this far-reaching foray into the millennia-long relationship between science and military power, acclaimed astrophysicist Neil deGrasse Tyson and co-author Avis Lang examine how the methods and tools of astrophysics have been enlisted in the service of war. Spanning early celestial navigation to satellite-enabled warfare, *Accessory to War* is a richly researched and provocative examination of the intersection of science, technology, industry, and power that will introduce Tyson's millions of fans to yet another dimension of how the universe has shaped our lives and our world.

City Spies Mar 17 2020 A New York Times bestseller! A GMA3 Summer Reading Squad Selection! "Ingeniously plotted, and a grin-inducing delight." —People "Will keep young readers glued to the page...So when do I get the sequel?" —Beth McMullen, author of *Mrs. Smith's Spy School for Girls* In this thrilling new series that Stuart Gibbs called "a must-read," Edgar Award winner James Ponti brings together five kids from all over the world and transforms them into real-life spies—perfect for fans of *Spy School* and *Mrs. Smith's Spy School for Girls*. Sara Martinez is a hacker. She recently broke into the New York City foster care system to expose her foster parents as cheats and lawbreakers. However, instead of being hailed as a hero, Sara finds herself facing years in a juvenile detention facility and banned from using computers for the same stretch of time. Enter Mother, a British spy who not only gets Sara released from jail but also offers her a chance to make a home for herself within a secret MI6 agency. Operating out of a base in Scotland, the *City Spies* are five kids from various parts of the world. When they're not attending the local boarding school, they're honing their unique skills, such as sleight of hand, breaking and entering, observation, and explosives. All of these allow them to go places in the world of espionage where adults can't. Before she knows what she's doing, Sara is heading to Paris for an international youth summit, hacking into a rival school's computer to prevent them from winning a million euros, dangling thirty feet off the side of a building, and trying to stop a villain...all while navigating the complex dynamics of her new team. No one said saving the world was easy...

The Truth About Santa Jul 13 2022 We all know Santa Claus: fat, jolly, omniscient, swift. Lives in a nice home in the Arctic, with the missus and a pack of elves. Well, forget what you know. Santa Claus is from Greenpoint, Brooklyn, as it turns out, and he's not as fat as he used to be. Here's something else you didn't know: he's been dabbling in some futuristic technology, and has found myriad ways to make his job possible. How can Santa know who's been naughty and nice? Simple: implant listening devices into your ornaments. How can he make it to every house Christmas Eve? That's nothing a little cloning and some wormholes can't solve. And he has plenty of other tactics: quantum entanglement, organ replacement, drug-induced hibernation, and unmanned aerial vehicles, to name just a few. In this fantastically illustrated, affectionate, and hilarious book, Gregory Mone uses science and technology to overturn the assumption that Santa can't be real. Drawing on the work of accomplished scientists and researchers, Mone gives us a whole new portrait of this remarkable man and the miracles he makes happen every year. With imaginative artwork and an eye-catching package, this book makes an outstanding Christmas gift for just about anyone.

Smack Dab in the Middle of Maybe Mar 29 2021 11 days. 13 clues. And one kid who won't give up. *Smack Dab in the Middle of Maybe* is "part treasure hunt, part wilderness adventure, and all heart" (Alan Gratz, New York Times bestselling author of *Refugee*). How far would you go to find something that might not even exist? All her life, Cricket's mama has told her stories about a secret room painted by a mysterious artist. Now Mama's run off, and Cricket thinks the room might be the answer to getting her to come back. If it exists. And if she can find it. Cricket's first clue is a coin from a grown-over ghost town in the woods. So with her daddy's old guidebook and a coat full of snacks stolen from the Cash 'n' Carry, Cricket runs away to find the room. Surviving in the woods isn't easy. While Cricket camps out in an old tree house and looks for clues, she meets

the last resident of the ghost town, encounters a poetry-loving dog (who just might hold a key to part of the puzzle), and discovers that sometimes you have to get a little lost . . . to really find your way. 2020 Mississippi Library Association Children's Author Award 2019 Southern Book Award Winner--Children's Category "A tale of adventure, full of mystery." -Robert Beatty, New York Times bestselling author of *Serafina and the Black Cloak* "An unforgettable story about a gutsy girl who will steal your heart." --Kathleen Glasgow, New York Times bestselling author of *Girl in Pieces* "Lyrical and endearing, this debut is a genuine adventure tale." --Kirkus Reviews, Starred *He-Man and the Masters of the Universe: The Hunt for Moss Man (Tales of Eternia Book 1)* Sep 15 2022 Bestselling author Gregory Mone brings Mattel's *He-Man and the Masters of the Universe* together for a brand-new adventure in the first book of this original middle-grade series based on the hit Netflix show! Jack and the Geniuses Nov 17 2022 New York Times bestselling authors Bill Nye the Science Guy and Gregory Mone take middle-grade readers on a scientific adventure in the launch of an exciting new chapter book series, *Jack and the Geniuses*. The perfect combination to engage and entertain readers, the series features real-world science along with action and a mystery that will leave kids guessing until the end, making these books ideal for STEM education. In the series opener, *Jack and the Geniuses: At The Bottom of The World*, readers meet Jack and his foster siblings, Ava and Matt, who are orphans. But they’re not your typical kind of orphans—they’re geniuses. Well, Ava and Matt are, which sometimes makes life difficult for twelve-year-old Jack. Ava speaks multiple languages and builds robots for fun, and Matt is into astronomy and a whiz at math. As for Jack, it’s hard to stand out when he’s surrounded by geniuses all the time. When the kids try to spy on Dr. Hank Witherspoon, one of the world’s leading scientists, they end up working for him in his incredible laboratory. Soon, Hank and the kids travel to Antarctica for a prestigious science competition, but they find that all is not as it seems: A fellow scientist has gone missing, and so has any trace of her research. Could someone be trying to use her findings to win the contest? It’s up to Jack, Ava, and Matt to find the missing scientist and discover who’s behind it all—before it’s too late. Integrating real science facts with humor and suspense, and featuring an ensemble cast of

loveable boy and girl characters, this uniquely engaging series is an irresistible chemical reaction for middle-grade readers. With easy-to-read language presented in a fun, motivating, and accessible way, this series opener is a great book for both inquisitive kids and reluctant readers. The book also includes information about the science discussed and used to solve the mystery, as well as a cool science project about density that kids can do at home or in the classroom. Quiet Power Mar 09 2022 The monumental bestseller *Quiet* has been recast in a new edition that empowers introverted kids and teens Susan Cain sparked a worldwide

conversation when she published *Quiet: The Power of Introverts in a World That Can't Stop Talking*. With her inspiring book, she permanently changed the way we see introverts and the way introverts see themselves. The original book focused on the workplace, and Susan realized that a version for and about kids was also badly needed. This book is all about kids' world—school, extracurriculars, family life, and friendship. You'll read about actual kids who have tackled the challenges of not being extroverted and who have made a mark in their own quiet way. You'll hear Susan Cain's own story, and you'll be able to make use of the tips at the end of each chapter. There's even a guide at the end of the book for parents and teachers. This insightful, accessible, and empowering book, illustrated with amusing comic-style art, will be eye-opening to extroverts and introverts alike.

Return Oct 24 2020 Third book in a wordless trilogy that began with *Journey*.

Otis and Will Discover the Deep Oct 04 2021 The suspenseful, little-known true story of two determined pioneers who made the first dive into the deep ocean. On June 6, 1930, engineer Otis Barton and explorer Will Beebe dove into the ocean inside a hollow metal ball of their own invention called the Bathysphere. They knew dozens of things might go wrong. A tiny leak could shoot pressurized water straight through the men like bullets! A single spark could cause their oxygen tanks to explode! No one had ever dived lower than a few hundred feet...and come back. But Otis and Will were determined to become the first people to see what the deep ocean looks like. This suspenseful story from acclaimed author Barb Rosenstock with mesmerizing watercolors by award-winning artist Katherine Roy will put you right in the middle of the spine-tingling, record-setting journey down, down into the deep.

Astrophysics for Young People in a Hurry Jan 07 2022 Neil deGrasse Tyson's #1 New York Times best-selling guide to the cosmos, adapted for young readers. From the basics of physics to big questions about the nature of space and time, celebrated astrophysicist and science communicator Neil deGrasse Tyson breaks down the mysteries of the cosmos into bite-sized pieces. *Astrophysics for Young People in a Hurry* describes the fundamental rules and unknowns of our universe clearly—and with Tyson's characteristic wit, there's a lot of fun thrown in, too. This adaptation by Gregory Mone includes full-color photos, infographics, and extra explanations to make even the trickiest concepts accessible. Building on the wonder inspired by outer space, *Astrophysics*

for Young People in a Hurry introduces an exciting field and the principles of scientific inquiry to young readers.

A Soft Place to Land Feb 25 2021 In this compelling and heartfelt mystery story, Janae Marks—author of the acclaimed bestselling *From the Desk of Zoe Washington*—follows a young girl reshaping her meaning of home. Perfect for fans of Erin Entrada Kelly and Rebecca Stead. Two starred reviews! A Project Lit Club Book Club Selection, S&L Lead Title, and Kids' Indie Next List Pick! "Joyful. A book that kids will love." —Rebecca Stead, Newbery Medal-winning author of *When You Reach Me* Joy Taylor has always believed home is the house she lived in her entire life. But then her dad lost his job, and suddenly, home becomes a tiny apartment with thin walls, shared bedrooms, and a place for tense arguments between Mom and Dad. Hardest of all, Joy doesn't have her music to escape through anymore. Without enough funds, her dreams of becoming a great pianist—and one day, a film score composer—have been put on hold. A friendly new neighbor her age lets Joy in on the complex's best-kept secret: the Hideout, a cozy refuge that only the kids know about. And it's in this little hideaway that Joy starts exchanging secret messages with another kid in the building who also seems to be struggling, until—abruptly, they stop writing back. What if they're in trouble? Joy is determined to find out who this mystery writer is, fast, but between trying to raise funds for her music lessons, keeping on a brave face for her little sister, and worrying about her parents' marriage, Joy isn't sure how to keep her own head above water. "Squeezes your heart in such a special way." —Lisa Moore Ramée, author of *A Good Kind of Trouble* and *Something to Say* "Readers will find hope in Joy's courage, ingenuity, and fierce dedication to her friends." —Kate Messner, author of *Breakout and Chirp* "A timely story about connection, loss and the spaces we need to understand one and brave the other." —Paula Chase, author of *Dough Boys* and *So Done*
