Connect students in grades 5 and up with science using Understanding the Human Body. This 80-page book presents basic information about the complex human body without overwhelming students with medical jargon. It makes the study of the human body even more fascinating with Far Out Facts, fun tidbits of information that keep students on their toes. The book includes a number of Web sites that provide students the opportunity to further explore various body systems and concepts. This book supports National Science Education Standards. Help students make the transition from math to geometry with activities that simplify geometric concepts, step-by-step instructions with examples, practice problems, real-life applications, a list of symbols and terms, tips, answer keys, and references. Use as a full unit, a supplement to the curriculum, or a tutorial that students can take home to reinforce classroom lessons. Supports NCTM standards. Paths to College and Career Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation. ABOUT PCG EDUCATION PCG Education, a division of Public Consulting Group, works with schools, districts, and state education agencies to build their capacity for instructional and programmatic improvements. We provide curriculum development, coaching, professional development, and technical assistance services. Our work alongside educators and policy makers ensures effective implementation of both the Common Core State Standards and state-specific standards for college and career readiness. measures. A must-have for any student, American Education Publishing Backpack Dictionaries are designed in a compact size for easy travel. Study & Master Agricultural Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Agricultural Sciences. In the aftermath of the Haitian earthquake, 15-year-old Shorty, a poor gang member from the slums of Site Soleil, is trapped in the rubble of a ruined hospital, and as he grows weaker he has visions and memories of his life of violence, his lost twin sister, and of Toussaint L'Ouverture, who liberated Haiti from French rule in the 1804. Study & Master Agricultural Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Agricultural Sciences. The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts/Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS). Reading Closely for Textual Details Making Evidence-Based Claims Making Evidence-Based Claims about Literary Technique (Grades 9-12) Researching to Deepen Understanding Building Evidence-Based Arguments The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time, but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from "making inferences" to "reflecting critically." Students focus on this set of twenty skills throughout the year and program, continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as "preparing" and "completing tasks" that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system, centered around the literacy skills and academic habits, allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels. National teacher preparation standards in gifted and talented education provide the foundation for research-based practices in gifted education and identify what teachers should know and be able to do to ensure that students with gifts and talents realize their full potential. Because the responsibility for teaching gifted learners and those with potential to achieve at high levels is often shared between gifted education program leaders and teachers in general and special education classrooms, this book shows Pre-K-12 education leaders how to develop partnerships, identify professional development outcomes, design learning activities, plan and implement comprehensive training programs, and evaluate the effectiveness of professional development activities. Special attention is paid to effecting change within a state and school system. Tools provided include sample needs assessments, student and teacher observation instruments, and a sample professional development plan. Study & Master Life Sciences was developed by practising teachers, and covers requirements per NCS. Want to get a full year's curriculum in one easy step? Alpha Omega Publications has this one in the box!
