Volumes in *Writing Spaces: Readings on Writing* offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres. This book showcases a unique, innovative form for contemporary life narrative scholarship. Life Narrative is a dynamic and interdisciplinary field defined through attention to diverse styles of personal and auto/biographical narration and to subjectivity and ethics in acts of self-representation. The essay is a uniquely sympathetic mode for such scholarship, responsive to diverse methods, genres, and concepts and enabling a flexible, hybrid critical and creative approach. Many of the essays curated for this volume are by the authors of creative works of life writing who are seeking to reflect critically on disciplinary issues connected to practice, ethics, audience, or genre. Others show academics from a variety of disciplinary backgrounds engaged in creative critical self-reflection, using methods of cultural analysis, ethnography, or embodied scholarship to address foundational and emerging issues and concepts in relation to identity, experience, or subjectivity. Essays in *Life Writing* positions the essay as a unique nexus of creative and critical practice, available to academics publishing peer-reviewed scholarly work from a variety of disciplinary backgrounds, and a form of scholarship that is contributing in exciting and vigorous ways to the development of new knowledge in Life Narrative as a field. The chapters in this book were originally published as a special issue of the journal *Life Writing*. The skill of good essay writing is essential if you are to achieve the kind of grades you want in the courses you are studying. This is true whether you are studying at GCSE, AS or A levels at school or college, or trying to gain a degree at university. The advice and practical

guidance you receive in this book will enable you to improve your grade assessments by putting into practice some simple, but invaluable principles of essay writing. These approaches will work for you whether you are facing assessment in timed exam conditions or being judged by coursework assignments. This book will take you step by step from your opening to your closing paragraph, so that you focus your thoughts on answering the assignment appropriately and relevantly. It also contains ten sample essays and useful chapters on grammar, accuracy and spelling. The fully updated fourth edition of the go-to guide for crafting winning essays for any type of graduate program or scholarship, including PhD, master's, MBA, MD, JD, postdocs, DDS, DVM, Rhodes, Marshall, Fulbright--you name it. Based on thousands of interviews with successful grad students and graduate admissions officers, *Graduate Admissions Essays* deconstructs and demystifies the ever-challenging and seemingly more impersonal application process for getting into graduate and scholarship programs. The book presents 50 sample essays in a comprehensive range of subjects, detailed strategies that have proven successful for some of the most notoriously competitive graduate programs in the country, as well as sample letters of recommendation, essays for residencies and fellowships, and postgrad applications. Award winning essayist Scott Russell Sanders once compared the art of essay writing to "the pursuit of mental rabbits"—a rambling through thickets of thought in search of some brief glimmer of fuzzy truth. While some people persist in the belief that essays are stuffy and antiquated, the truth is that the personal essay is an ever-changing creative medium that provides an ideal vehicle for satisfying the human urge to document truths as we experience them and share them with others—to capture a bit of life on paper. *Crafting the Personal Essay* is designed to help you explore the flexibility and power of the personal essay in your own writing. This hands-on, creativity-expanding guide will help you infuse your nonfiction with honesty, personality, and energy. You'll discover:

"In the electric, pulsating world around us, the essay lives a life of abandon, posing questions, speaking truths, fulfilling a need humans have to know what other humans think and wonder

so we can feel less alone." -Katherine Bomer

Sadly, many students only know "essay" as a 5-paragraph, tightly structured writing assignment that must check all the boxes of a standardized formula. How did essays in school get so far away from essays in the world? Katherine makes a powerful case for teaching the essay as a way to restore writing to think—that it is in fact necessary for students' success in college and career. "Essay helps students write flexibly, fluently, and with emboldened voices," she writes in *The Journey Is Everything*, "qualities they can translate into any assigned writing task in school or in life." She argues that the close reading of essays fulfills the recommendations of state and national standards, while practice in essay writing leads to better academic and test writing. More importantly, "Essay gives its author the space, time, and freedom to think about and make sense of things, take a journey of discovery, and speak her mind, without boundaries." Don't students deserve the chance to develop their own topics, discover their own writing voices, and learn to structure prose organically, according to the content? Katherine gives you tools, strategies, and activities to bring a unit on more authentic writing into your practice. Rediscover the power of the essay to bring out students' true thinking—their true selves. Because after all, the journey is everything. Collects inspirational essays celebrating the art of writing, including contributions from Russell Banks, Saul Bellow, and E.L. Doctorow. In *Writing Anthropology*, fifty-two anthropologists reflect on scholarly writing as both craft and commitment. These short essays cover a wide range of territory, from ethnography, genre, and the politics of writing to affect, storytelling, authorship, and scholarly responsibility. Anthropological writing is more than just communicating findings: anthropologists write to tell stories that matter, to be accountable to the communities in which they do their research, and to share new insights about the world in ways that might change it for the better. The contributors offer insights into the beauty and the function of language and the joys and pains of writing while giving encouragement to stay at it—to keep writing as the most important way to not only improve one's writing but to also honor the stories and lessons learned through research. Throughout, they share new thoughts, prompts, and agitations for writing that will stimulate conversations that cut across the humanities. George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — *Irish Times* This book gives students an answer to the question, "What does my professor want from this essay?" In lively, direct language, it explains the process of creating "a clearly-written argument, based on evidence, about the meaning, power, or structure of a literary work." Using a single poem by William Carlos Williams as the basis for the process of writing a paper about a piece of literature, it walks students through the processes of reading, brainstorming, researching secondary sources, gathering evidence, and composing and editing the paper. *Writing Essays About Literature* is designed to strengthen argumentation skills and deepen understanding of the relationships between the reader, the author, the text, and critical interpretations. Its lessons about clarity, precision, and the importance of providing

evidence will have wide relevance for student writers. Writing an amazing college admission essay is easier than you think!
