"Icom IC M802 Starting from Scratch" is for cruisers who want to buy and install an HF SSB radio on their boat. This is a one stop shopping book that covers HF SSB basics; Ships Licensing; purchase the right parts; installation the parts right; configuration of radio; testing the system; and setting up your HF SSB email. This book also includes an enhanced versions of my procedures found in the popular "Icom IC M802 Made Simple for Cruisers". (See www.made-simplefor-cruisers.com) After finding so many poor installations on cruising boats,

If you are planning to buy an HF SSB radio or just getting ready to install one, you will save time and money if you have read this book before installation. A check sheet is provided to make sure all the parts are available for installation. Another check sheet is included to guide you through an inspection of the new installation to make sure the radio is operational and does not get damaged when you key the microphone the first time. As an added plus the book contains a three discount coupons worth \$120.00 for the system and components you may want in your HF SSB System.
