Magna Carta Feb 11 2022 This new history is the first to tell the story of Magna Carta 'through the ages'. No other general work traces its continuing importance in England's political consciousness. Many books have examined the circumstances surrounding King John's grant of Magna Carta in 1215. Very few trace the Charter's legacy to subsequent centuries and even fewer

look at the fate of the physical document. Turner also underlines its great influence outside the United Kingdom, especially in North America. Today, the Charter enjoys greater prestige in the United States, the land of lawyers, than in Britain. U.S. citizens claim Magna Carta as a source of their liberties, guaranteeing 'due process of law' and condemning 'executive privilege'.

*The Influence of Sea Power Upon History, 1660-1783 Jul 16 2022
The Patch Apr 01 2021 "In its heyday, the oil sands represented an industrial triumph and the culmination of a century of innovation, experiment, engineering, policy, and finance. Fort McMurray was a boomtown, the centre of a new gold rush, and the oil sands were reshaping the global energy, political, and financial landscapes. The future seemed limitless for the city and those who drew their wealth from the bitumen-rich wilderness. But in 2008, a new narrative for the oil sands emerged. As financial markets collapsed and the scientific reality of the Patch's effect on the environment became clear, the region turned into a boogeyman and a lightning rod for the global movement combatting climate change. Suddenly, the streets of Fort McMurray were the front line of a high-stakes collision between two conflicting worldviews--one of industrial triumph and another of environmental stewardship--each backed by major players on the world stage. The Patch is the seminal account of this ongoing conflict, showing just how far the oil sands reaches into all of our lives. From Fort Mac to the Bakken shale country of North Dakota, from Houston to London, from Saudi Arabia to the shores of Brazil, the whole world is connected in this enterprise. And it requires us to ask the question: In order to both fuel the world and to save it, what do we do about the Patch?"--*

The Lords of Easy Money Jun 22 2020 "The New York Times bestselling business journalist Christopher Leonard infiltrates one

of America's most mysterious institutions--the Federal Reserve--to show how its policies over the past ten years have accelerated income inequality and put our country's economic stability at risk"--

James Timothy Turner Dec 29 2020 On April 28, 2016, court was held in Heaven on behalf of the interim government of the re-inhabited American Republic and her founding president, James Timothy Turner. President Turner was kidnapped in 2012 and held as a political prisoner by -cunning, ambitious, and unprincipled men, - (to quote George Washington's Farewell Address of 1796)

*The Democratic Surround Oct 19 2022 We commonly think of the psychedelic sixties as an explosion of creative energy and freedom that arose in direct revolt against the social restraint and authoritarian hierarchy of the early Cold War years. Yet, as Fred Turner reveals in *The Democratic Surround*, the decades that brought us the Korean War and communist witch hunts also witnessed an extraordinary turn toward explicitly democratic, open, and inclusive ideas of communication and with them new, flexible models of social order. Surprisingly, he shows that it was this turn that brought us the revolutionary multimedia and wild-eyed individualism of the 1960s counterculture. In this prequel to his celebrated book *From Counterculture to Cyberculture*, Turner rewrites the history of postwar America, showing how in the 1940s and '50s American liberalism offered a far more radical social vision than we now remember. Turner tracks the influential mid-century entwining of Bauhaus aesthetics with American social science and psychology. From the Museum of Modern Art in New York to the New Bauhaus in Chicago and Black Mountain College in North Carolina, Turner shows how some of the most well-known artists and intellectuals of the forties developed new models of media, new theories of interpersonal and international*

collaboration, and new visions of an open, tolerant, and democratic self in direct contrast to the repression and conformity associated with the fascist and communist movements. He then shows how their work shaped some of the most significant media events of the Cold War, including Edward Steichen's Family of Man exhibition, the multimedia performances of John Cage, and, ultimately, the psychedelic Be-Ins of the sixties. Turner demonstrates that by the end of the 1950s this vision of the democratic self and the media built to promote it would actually become part of the mainstream, even shaping American propaganda efforts in Europe. Overturning common misconceptions of these transformational years, The Democratic Surround shows just how much the artistic and social radicalism of the sixties owed to the liberal ideals of Cold War America, a democratic vision that still underlies our hopes for digital media today.

Understanding Celebrity Nov 15 2019 `Graeme Turner is one of the leading figures in cultural studies today. When his gaze turns to celebrity, the result is a readable and compelling account of this most perplexing and infuriating of modern phenomena. Read on!' - Toby Miller, New York University We cannot escape celebrity culture: it is everywhere. So just what is the cultural function of celebrity? This is the first comprehensive overview of the production and consumption of celebrity from within cultural and media studies. The pervasive influence of contemporary celebrity, and the cultures it produces, has been widely noticed. Earlier studies, though, have tended to focus on the consumption of celebrity or on particular locations of celebrity - Hollywood, or the sports industries for instance. This book presents a broad survey across all media as well as a new synthesis of theoretical positions, that will be welcomed by all students of media and cultural studies. Among its

attributes are the following: -It provides an overview and evaluation of the key debates surrounding the definition of celebrity, its history, and its social and cultural function -It examines the 'celebrity industries': the PR and publicity structures that manufacture celebrity -It looks at the cultural processes through which celebrity is consumed -It draws examples from the full range of contemporary media - film, television, newspapers, magazines and the web

Introduction to American Government 6th Edition Feb 23 2023
The Body and Society Nov 08 2021 "This truly deserves to be considered a classic and I strongly encourage my students to read it from cover to cover. Turner's work on the body needs to be considered in its own right within courses on the sociology of the body." - Dr Robert Meadows, Surrey University "Remains the foundational text for courses in the sociology of the body, replete with insights and a depth of analysis that has largely inspired an entire new area of studies across the social sciences." - Dr Michael Drake, Hull University "This is THE contemporary text for both academics and students exploring the sociology of the body." - Jessica Clark, University Campus Suffolk This is a fully revised edition of a book that may fairly claim to have re-opened the sociology of the body as a legitimate area of enquiry. Providing an unparalleled guide to all aspects of the subject, each chapter has been revised and updated while the book contains new material that reflects both recent changes in the field and Turner's developing position on the centrality of vulnerability. Assured and innovative, this book provides the most authoritative statement of work on the sociology of the body by one of the leading writers in the field.

Boom and Bust Jul 04 2021 Why do stock and housing markets sometimes experience amazing booms followed by massive busts and

why is this happening more and more frequently? In order to answer these questions, William Quinn and John D. Turner take us on a riveting ride through the history of financial bubbles, visiting, among other places, Paris and London in 1720, Latin America in the 1820s, Melbourne in the 1880s, New York in the 1920s, Tokyo in the 1980s, Silicon Valley in the 1990s and Shanghai in the 2000s. As they do so, they help us understand why bubbles happen, and why some have catastrophic economic, social and political consequences whilst others have actually benefited society. They reveal that bubbles start when investors and speculators react to new technology or political initiatives, showing that our ability to predict future bubbles will ultimately come down to being able to predict these sparks.

Courageous Faith Apr 20 2020 "An inspiring page-turner about faith . . . a masterfully written instruction manual for overcoming fear, a treasure trove of strategies for confidently navigating the path to success." T.D. JAKES SR., CEO of TDJ Enterprises, LLP; senior pastor of The Potter's House of Dallas, Inc.; and New York Times best-selling author When you feel like giving up, seek God and ask for Courageous Faith. Set-backs, failures, and fatigue impacts us all. And at times we don't feel like going on. But we must! In this book you'll discover faith-filled principles to use as a blueprint for perseverance, and a new definition of success for your life.

Hard Road Aug 25 2020 Jon Reznick is a "ghost" a black-ops specialist who takes his orders from shadowy handlers, and his salary from the US government. Still mourning the loss of his beloved wife on 9/11, he's dispatched to carry out a high-level hit. Reznick knows only that it must look like suicide. It's textbook. But the target is not the man Reznick expected. The whole setup is wrong.

In an instant the operation is compromised, and Reznick is on the run with the man he was sent to kill. A man wanted by the FBI, and by a mysterious terrorist organization hell-bent on bringing the United States to its knees. FBI Assistant Director Martha Meyerstein is determined to track him down, and to intercept whatever it is Reznick was sent to do. When Reznick's young daughter becomes a pawn in the game, he has to use more than his military training to stay one step ahead of those responsible. Meanwhile, he is the only person who knows the true extent of the threat to national security--and has the stealth and determination to stop it. Revised edition: This edition of Hard Road includes editorial revisions.

Progressive Historians Jan 10 2022 Richard Hofstadter, the distinguished historian and twice winner of the Pulitzer Prize, brilliantly assesses the ideas and contributions of the three major American interpretive historians of the twentieth century: Frederick Jackson Turner, Charles A. Beard and V.L. Parrington. These men, whose views of history were shaped in large part by the political battles of the Progressive era, provided the Progressive movement with a usable past and the American liberal mind with a historical tradition. The Progressive Historians is at once a critique of historical thought during this decisive period of American

development and an account of how these three writers led American historians into the controversial political world of the twentieth century. Turner, in developing his idea that American democracy is the outcome of the experience of frontier expansion and the settlement of the West, introduced his fellow historians to a set of new concepts and methods, and in doing so re-drew the guidelines of American historiography. Beard insisted upon the elitist origins of the Constitution, crusaded for the economic interpretation of history, and ultimately staked his historical reputation on an isolationist view of recent American foreign policy. Parrington emphasized the moral and social functions of literature, and read the history of literature as a history of the national political mind. In recent years, the tide has run against the Progressive historians, as one specialist after another has taken issue with their interpretations. The movement of contemporary historical thought has led to a rediscovery of the complexity of the American past. Although he cannot share the faith of the Progressive historians in the sufficiency of American liberalism as a guide to the modern world, Richard Hofstadter believes we have much to learn about ourselves from a reconsideration of their insights.

The Turner Diaries Jan 30 2021 At 9:02 am on Wednesday April 19, 1995, two tons of explosives ripped apart the federal office building in Oklahoma City and the psyche of America. The worst case of domestic terrorism in our history, this explosion killed 169 men, women, and children. The author of this book has written, If [this book] had been available to the general public . . . the Oklahoma bombing would not have come as such a surprise. It has been considered by the Justice Department and other government agencies as the bible of right-wing militia groups, and the FBI

believes it provided the blueprint for the Oklahoma City bombing. Barricade Books has published it so America can better understand the cause of racism and extremism.

The Ninth State Jun 03 2021 Turner's work documents New Hampshire's transition from colony to state, including the development of the state constitution, the contests between constantly mutating political parties, and the conquering of the New England wilderness. He details the painful evolution of relations between the state government and the equally inexperienced federal government and takes note of the formidable accomplishments of the state's citizens during this period. Originally published in 1983. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

American Images of China May 14 2022 The United States and China are arguably the most globally consequential actors of the early twenty first century, and look set to remain so into the foreseeable future. This volume seeks to highlight that American images of China are responsible for constructing certain truths and realities about that country and its people. It also introduces the understanding that these images have always been inextricable from the enactment and justification of US China policies in Washington, and that those policies themselves are active in the production and reproduction of imagery and in the protection of American identity when seemingly threatened by that of China. Demonstrating how past American images of China are vital to understanding the nature and significance of those which circulate today, Turner

addresses three key questions: What have been the dominant American images of China and the Chinese across the full lifespan of Sino-US relations? How have historical and contemporary American images of China and the Chinese enabled and justified US China policy? What role does US China policy play in the production and reproduction of American images of China? Exploring and evaluating a wide-ranging variety of sources including films and television programmes, newspaper and magazine articles, the records and journals of politicians and diplomats and governmental documents including speeches and legal declarations this work will be of great interest to students and scholars of US foreign policy, American politics, China studies and international relations.

Understanding American Government Aug 05 2021

Three Girls from Bronzeville Jul 24 2020 "The three girls formed an indelible bond: roaming their community in search of hidden treasures for their 'Thing Finder box,' and hiding under the dining room table, eavesdropping as three generations of relatives gossiped and played the numbers. The girls spent countless afternoons together, ice skating in the nearby Lake Meadows apartment complex, swimming in the pool at the Ida B. Wells housing project, and daydreaming of their futures: Dawn a writer, Debra a doctor, Kim a teacher. Then they came to a precipice, a fraught rite of passage for all girls when the dangers and the harsh realities of the world burst the innocent bubble of childhood, when the choices they made could--and would--have devastating consequences. There was a razor thin margin of error--especially for brown girls"

Seeing Silicon Valley Sep 06 2021 Also published in French as Visages de la Silicon Valley.

Introduction to American Government Jan 22 2023

Brigham Young May 02 2021 Brigham Young was a rough-hewn New York craftsman whose impoverished life was electrified by the Mormon faith. Turner provides a fully realized portrait of this spiritual prophet, viewed by followers as a protector and by opponents as a heretic. His pioneering faith made a deep imprint on tens of thousands of lives in the American Mountain West.

The Turner House Mar 20 2020 Learning that after a half-century of family life that their house on Detroit's East Side is worth only a fraction of its mortgage, the members of the Turner family gather to reckon with their pasts and decide the house's fate. A first novel. 20,000 first printing.

The Significance of the Frontier in American History Apr 13 2022 This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

No Way Back May 22 2020 From the author of the bestselling Jon Reznick Thriller series comes an exhilarating new adventure. When the people he loves most are in danger, Jack McNeal will get revenge...or die trying. NYPD detective Jack McNeal is used to asking the tough questions. But a late-night visit from the Secret

Service lands Jack on the other side of the table--as a suspect in the disappearance of his estranged wife, Caroline, a prominent reporter on the White House beat. When her body is found floating in the Potomac, Jack is overcome by disbelief and despair. Her death seems eerily similar to the suspicious fatality of a young socialite years before. Is the similarity of the two tragic incidents simply a coincidence, or could it be a sign of a murderous orchestrated plot to protect those in the highest echelons of the American government? To avenge Caroline's death, Jack embarks on a journey into the darkest recesses of power. Suspects abound--from haunted special forces soldiers to ex-CIA to the president's own body man. Along the way, Jack will be forced to decide: Is there a line he won't cross to expose the killer?

The Frontier in American History Jun 15 2022

A Man Called Horse Mar 12 2022 A daring account of Black Seminole warrior, chief, and diplomat John Horse and the route he forged on the Underground Railroad to gain freedom for his people John Horse (c. 1812–1882, also known as Juan Caballo) was a famed chief, warrior, tactician, and diplomat who played a dominant role in Black Seminole affairs for half a century. His story is central to that of the Black Seminoles—descendants of Seminole Indians, free Blacks, and escaped slaves who formed an alliance in Spanish Florida. A political and military leader of mixed Seminole and African heritage, Horse defended his people from the US government, other tribes, and slave hunters. A Man Called Horse focuses on the little-known life of Horse while also putting into historical perspective the larger story of Native Americans and especially Black Seminoles, helping to connect the missing “dots” in this period. After fighting during the Second Seminole War (1835–1842), one of the longest and most costly Native American

conflicts in US history, Horse negotiated terms with the federal government and later became a guide and interpreter. Forced to relocate, he led a group of Black Seminoles to find a new home, first heading westward to Texas and later to Mexico. Turner worked with descendants of Horse, who provided oral histories as well as many photographs and other artifacts. Her expertly researched and vetted biography depicts Horse as a complex, fascinating figure who served in many varied roles, including as a counselor of fellow Seminole leaders, an agent of the US government, and a captain in the Mexican army. But no matter the part he played, one thing remained constant: whether in battle or at the negotiating table, Horse fought tirelessly to help his people survive. The story of John Horse is a tale of daring, intrigue, and the lifelong quest for freedom. The book includes black-and-white archival photos throughout (though the book is designed in full color), as well as a map, timeline, author's note, endnotes, and select bibliography.

The Turner Thesis Concerning the Role of the Frontier in American History Jan 18 2020

Private Government Oct 27 2020 *Why our workplaces are authoritarian private governments—and why we can't see it One in four American workers says their workplace is a "dictatorship." Yet that number almost certainly would be higher if we recognized employers for what they are—private governments with sweeping authoritarian power over our lives. Many employers minutely regulate workers' speech, clothing, and manners on the job, and employers often extend their authority to the off-duty lives of workers, who can be fired for their political speech, recreational activities, diet, and almost anything else employers care to govern. In this compelling book, Elizabeth Anderson examines why, despite all this, we continue to talk as if free markets make workers free, and*

she proposes a better way to think about the workplace, opening up space for discovering how workers can enjoy real freedom.

Our Constitution Rocks Aug 17 2022 Imagine a world without Twitter, Facebook, YouTube, Instagram, or even television. That was the world the framers of the United States Constitution lived in. Yet their work changed the course of history. Learn how those guys in wigs and tights came up with some of the best ideas ever. Come along on one of the most fun and engaging discoveries available to kids today about America's Constitution. Juliette Turner, Youth Advocate for Constituting America, takes a unique look at our founding document, presenting it in a beautifully organized fashion, with helpful illustrations and sidebars that support the main ideas. Packed with tons of easy-to-read, easy-to-understand information, Our Constitution Rocks breaks down the Constitution article by article into manageable sections in a way everyone can read and understand—students and parents alike. Our Constitution Rocks is for a new generation, a reminder of what it means to have a voice and live free. It still matters to kids today. Find out why. Our Constitution Rocks: Is presented in an easy-to-use format that makes the Constitution easy to understand Includes fun facts, quotes, cartoons, actual debates, great graphics, and much, much more Breathes new life into an old document, reminding readers young and old why it remains one of the most important documents in world history Is an ideal teaching and reference tool for homeschooling or school libraries

The Antifederalists Oct 07 2021 Antifederalists: Critics of the Constitution, 1781-1788

Introduction to American Government Feb 28 2021

The Turner Diaries Nov 20 2022 A futuristic action-adventure novel, has been an underground bestseller for more than four

decades. It chronicles a future America wracked by government oppression, revolutionary violence, and guerrilla war.

Barbarous Mexico Nov 27 2020

Vulnerability and Human Rights Dec 17 2019 The mass violence of the twentieth century's two world wars—followed more recently by decentralized and privatized warfare, manifested in terrorism, ethnic cleansing, and other localized forms of killing—has led to a heightened awareness of human beings' vulnerability and the precarious nature of the institutions they create to protect themselves from violence and exploitation. This vulnerability, something humans share amid the diversity of cultural beliefs and values that mark their differences, provides solid ground on which to construct a framework of human rights. Bryan Turner undertakes this task here, developing a sociology of rights from a sociology of the human body. His blending of empirical research with normative analysis constitutes an important step forward for the discipline of sociology. Like anthropology, sociology has traditionally eschewed the study of justice as beyond the limits of a discipline that pays homage to cultural relativism and the "value neutrality" of positivistic science. Turner's expanded approach accordingly involves a truly interdisciplinary dialogue with the literature of economics, law, medicine, philosophy, political science, and religion.

From Counterculture to Cyberculture Sep 25 2020 In the early 1960s, computers haunted the American popular imagination. Bleak tools of the cold war, they embodied the rigid organization and mechanical conformity that made the military-industrial complex possible. But by the 1990s—and the dawn of the Internet—computers started to represent a very different kind of world: a collaborative and digital utopia modeled on the communal ideals of the hippies who so vehemently rebelled against the cold war

establishment in the first place. From Counterculture to Cyberculture is the first book to explore this extraordinary and ironic transformation. Fred Turner here traces the previously untold story of a highly influential group of San Francisco Bay-area entrepreneurs: Stewart Brand and the Whole Earth network. Between 1968 and 1998, via such familiar venues as the National Book Award-winning Whole Earth Catalog, the computer conferencing system known as WELL, and, ultimately, the launch of the wildly successful Wired magazine, Brand and his colleagues brokered a long-running collaboration between San Francisco flower power and the emerging technological hub of Silicon Valley. Thanks to their vision, counterculturalists and technologists alike joined together to reimagine computers as tools for personal liberation, the building of virtual and decidedly alternative communities, and the exploration of bold new social frontiers. Shedding new light on how our networked culture came to be, this fascinating book reminds us that the distance between the Grateful Dead and Google, between Ken Kesey and the computer itself, is not as great as we might think.

The Promise of Wilderness Sep 18 2022 From Denali's majestic slopes to the Great Swamp of central New Jersey, protected wilderness areas make up nearly twenty percent of the parks, forests, wildlife refuges, and other public lands that cover a full fourth of the nation's territory. But wilderness is not only a place. It is also one of the most powerful and troublesome ideas in American environmental thought, representing everything from sublime beauty and patriotic inspiration to a countercultural ideal and an overextension of government authority. The Promise of Wilderness examines how the idea of wilderness has shaped the management of public lands since the passage of the Wilderness Act in 1964.

Wilderness preservation has engaged diverse groups of citizens, from hunters and ranchers to wildlife enthusiasts and hikers, as political advocates who have leveraged the resources of local and national groups toward a common goal. Turner demonstrates how these efforts have contributed to major shifts in modern American environmental politics, which have emerged not just in reaction to a new generation of environmental concerns, such as environmental justice and climate change, but also in response to changed debates over old conservation issues, such as public lands management. He also shows how battles over wilderness protection have influenced American politics more broadly, fueling disputes over the proper role of government, individual rights, and the interests of rural communities; giving rise to radical environmentalism; and playing an important role in the resurgence of the conservative movement, especially in the American West. Watch the book trailer:

Child Bride Feb 17 2020 In the segregated South of the mid-1900s, fourteen-year-old Nell bears witness to a world that embraces the oppression of women. She is fascinated with the prospect of being an independent person—but when she turns sixteen, she is married off and brought to the city of Boston as a bride. Nell is a shy girl who must quickly learn how to be a wife and mother. She quickly discovers that she must acquire new skills to navigate the unknown territory of the North, as well as her relationship with her husband, Henry, who is controlling and emotionally abusive. After giving birth to three children, her body begins to fail her and Henry, concerned for her health, pulls away from her physically. But this void of intimacy drives Nell into the arms of another man. It's through her encounter with Charles in the church kitchen, at the point when she is most vulnerable, that Nell finds escape from her

depressed life with Henry. The cost though, is another pregnancy. When Charles finds out the baby is his, at first it appears he plans to leave Nell; ultimately, however, his love for her brings him back.
