African American Musical Heritage Jul 22 2020 LENARD C. BOWIE, DMA ASSOCIATE PROFESSOR OF MUSIC, RETIRED THE UNIVERSITY OF NORTH FLORIDA JACKSONVILLE , FLORIDA Dr. Lenard C. Bowie has developed an enviable reputation as a consummate musician. He is a classical trumpet artist, accomplished band director, effective music administrator, skilled lecturer and published author. As an author, Bowie's expertise in several fields of endeavor has been documented through the following subjects, as published in the professional music journals indicated: "Solving Problems of Young Trumpet Players, " published in the Music Educators National Journal (December, J979) , a critical review of "Black University Marching Bands in the 80's." published by The Marching Band (January, 198 1), and the Proceedings of an Informal Research Conference whose mission was to document the extent to which African American music courses

were offered in Florida's Public Schools was published by the Florida Music Educator (June, 2002). As an undergraduate, Bowie was plagued by many questions concerning the absence of formal instruction in the music of his people, especially when considering the fact that there were only two authentic types of American music -- that of the American Indians and that of African Americans, with African American Music being the most important of the two. Bowie's search for answers to his probing questions began when he enrolled in Professor Willie Ruffs course in Black Music as a graduate student at Yale University in 1974. This course opened Bowie's eyes, ears and mind to many of his here-to-fore unanswered questions; including the extent to which African music traditions are practiced in African American Music today, and the impact that African American Music has made on the social, political, economic, and religious climates of modern American Society. After graduating from Yale with a Master of Musical Arts Degree in 1976, Bowie struck out on a mission to enlarge on what he had learned about African American Music. This mission brought him in contact with a wealth of information through independent study of numerous publications and documentaries; lectures, festivals, concerts; and personal contacts with scholars who were, or have become, major players in the research, dissemination, performance and composition of African American Music. Some of these scholars include former colleagues Dr. Oily W. Wilson, composer and Chair of Composition at UCLA, Berkeley, Samuel Floyd, Founder and Director of the Center for Black Music Research, found at Fisk University, now housed at Columbia College, Chicago, Dr. Aaron Horne, African American Music Biographer and Dean of Fine Arts, Winston Salem University, North Carolina, Arametha Adams - Hummings, Founder and Director of the Gateways Music Festival, initiated at the North Carolina School of the Arts, now housed at the Eastman School of Music in Rochester, New York, Operatic Tenor and Music Educator, the late Dr. William A. Brown. Others include Dr. Portia Maulsby, Professor of Music at Indiana University, Dr. Dena Epstein, Retired Music Librarian, Archival Researcher and Author, Chicago, Dr. Rene Boyer-White, Professor of Music Education, College-Conservatory of Music, The University of Cincinnati, and Dr. John Smith, Dean of Fine Arts, The University of South Florida at Tampa. During the first of Dr. Bowie's two terms as Music Department Chair at The University of North Florida, he was afforded an opportunity to apply and distribute his long sought knowledge. The opportunity came in the form of a Million Dollar

Endowment from the Koger Company to develop programs of study in American Music. The response of the faculty to the endowment was to institute two programs: a Jazz Studies Program and a program in African American Music. The Jazz Studies Program has become nationally recognized for outstanding achievements in jazz theory, history and performance. The latter program, designed and developed by Bowie, was chall

Beethoven's Symphonies Nov 18 2022 Ludwig Van Beethoven's nine symphonies stand as towering masterworks at the core of the classical canon. In Beethoven's hands, the symphony expanded dramatically in scope and power in a way that would revolutionise both the form itself and music in general. The impact of Beethoven's nine was such that composers long after him would write their own symphonies in his shadow. In this book, acclaimed Pianist and critic John Bell Young explores each of the nine symphonies, always looking beneath the surface for what makes the music so compelling. He places them in their historical and cultural context, and he describes how the Russian concept of intonatsiia, a way of perceiving relationships "between the notes," can help deepen our appreciation of these pieces. The accompanying CD contains selections from all of the symphonies, each performance conducted by the legendary Wilhelm Furtwangler.

The Symphony Jun 20 2020 The two-hundred-year development of the symphonic form is traced through a discussion of representative compositions from each period. Robert Schumann and the Study of Orchestral Composition Apr 30 2021 Robert Schumann sketched his First Symphony in only four days--a remarkable feat for an artist poorly versed in the genre. In this study, Jon Finson examines these sketches to show how the composer's experience with symphonic composition and his autodidactic course in orchestration assisted in the rapid fashioning of this symphony--a work deliberately calculated to establish his reputation as a major artist. Finson also provides examples of the autograph score and subsequent editions of the Spring Symphony to

reveal Schumann's empirical method of orchestration and his concern for the exigencies of performance.

Beethoven Jul 02 2021 Beethoven's Ninth Symphony, a masterpiece that has influenced virtually every Western composer since its premiere, has become associated with the marking of momentous public occasions. In 1989, Chinese students played its finale

through loudspeakers in Tiananmen Square, and Leonard Bernstein led a performance in Berlin to celebrate the razing of the Berlin Wall. This lively and up-to-date book focuses on Beethoven's Ninth, exploring the cultural and musical meanings that surround this powerful work of genius. David B. Levy sets the scene with a brief survey of nineteenth-century Germanic culture and society, then analyzes the Ninth symphony in detail with special emphasis on the famous choral finale. He discusses the initial performances in 1824 under Beethoven's direction and traces the symphony's critical reception and legacy. In the final chapter of the book, Levy examines interpretations of the work by prominent conductors, including Wagner, Mahler, and Weingartner. A fully annotated discography of selected recordings completes this comprehensive volume.
